Summary

A motivated and detail-oriented Software Engineering graduate with a strong foundation in programming, web development. Proficient in HTML/CSS, and JavaScript, with hands-on experience in the MERN stack, GitHub, and cloud platforms. Adept at working both independently and collaboratively, with a proven ability to innovate, solve complex problems and manage time effectively.

Experience

Mehdi Tech - Internship   **August 2024 – Present 2024**
Software Engineer Intern   *Islamabad, Pakistan*

- Designed & developed a dashboard for telegram mini app.
- Worked closely with senior developers to complete their tasks.
- Developed many other responsive mini apps for practicing tailwind.css such as tic tac toe game, Pizza App etc.

NADRA - Internship   **July 2023 – August 2023**
Software Engineer Intern   *Islamabad, Pakistan*

- Made various dashboards on power bi & tableau out of datasets for detailed monitoring & Analysis.
- Attended training sessions on work ethics, business writing & email writing.

Skills

- Written & Verbal
- Communication
- Work Independently
- Innovator
- Willing to Learn
- Analytical Skills
- Problem Solving
- Time Management

Technical Skills

LanguagesHTML/CSS, JavaScript
Developer Tools: VS Code, Postman, Insomnia
Technologies/Frameworks: Tailwind.css, Vite.js, Linux, GitHub, MERN Stack

Projects

ClassConnect | *React, Mongo db, node, express*   **October 2023**

- Developed a facial recognition based attendance system for students to automate the attendance process & ensure accuracy.
- Implemented online MCQS based quiz & assignment management system. Where system evaluates the marks of quizzes along with timer feature.
- Extracted classes schedule data of the institute & displayed user specific classes schedule to instructors & students.
- Developed students performance report feature after the marks of students are finalized. So that institute can analyze overall performance of students in specific course.

CyberSphereX | *React, Mongo db, node, express*   **January 2024**

- Custom chat-bot using GPT-3.5. I developed front end, back end & created databases to save 5 recent chats between user & model.
- Proper JWT based authentication is implemented.
- GPT-3.5 API was integrated with my app.

Loan Predictor - Frontend | *React, Mongo db, node, express*   **July 2023**

- Created a from which inputs financial data from user & predicts weather user is eligible for the loan or not.
- Integrated trained model on dataset with application.

Education

Shaheed Zulfiqar Ali Bhutto Institute of Science & Technology   **October 2020 – August 2024**
BS Software Engineering   *Islamabad, Pakistan*
